

Astronomy Night-Sky Observing “Expedition”

Friday, September 1, 2023

For our first astronomy observing session, we’ll stay at school, because we won’t need particularly dark skies. The plan is to get practice setting up the telescopes, look at some constellations that we’ve been learning, and look at (and draw) Saturn and the Moon.

We’ll start at 7:00 pm, and I plan to be finished by 8:30 pm.

I, _____, give my child, _____, permission to participate in the Astronomy Night-Sky Observing session at Christian Liberty Academy on Friday, September 1. I understand that the school and the sponsors will do their best to ensure safety and welfare of my child, and I agree not to hold them liable for any accidents. In case of emergency I give my permission for the sponsors to arrange for emergency medical treatment. I understand that every effort will be made to contact me before such medical treatment may become necessary.
